

*Our aim is to provide the very highest standard of wine service, encouraging guests to try something a little more unusual and keeping a real focus on pairing wines with the dishes on the menu, by creating a wine list championing also local Welsh and English wines, independent growers, organic, biodynamic and natural producers and lesser-known grape varieties.*

*This list is a reflection of our interests and favourite products from around the globe. Our list is neither vast or extensive.*

*Sustainability sits at the heart of this list and we select products created by likeminded individuals.*

*The same producers are thinking towards our future, the land that bears such fruits and the ingredients .*

*As might be expected, some wine can be positively different from 'conventional' wine in appearance and taste.*

**We apologise if some vintages become exhausted or bottles become unavailable**
